

SMART SOLUTIONS GROUP

Integrated Execution. Future-Ready Solutions.

Corporate Portfolio

SMART SOLUTIONS, SUSTAINABLE FUTURE.

OVERVIEW

To be the definitive architect of the Saudi transition, recognized as the Kingdom's most trusted partner for integrated, smart, and sustainable development. We aim to set the global benchmark for how multi-disciplinary synergy can accelerate the realization of Vision 2030.

MISSION

To transform bold visions into enduring realities by deploying elite technical expertise and innovative industrial solutions. We are committed to protecting our clients' ROI through zero-friction execution, uncompromising quality, and a relentless pursuit of environmental excellence.

AT A GLANCE

The Unified Engine of Saudi Development.

Smart Solutions Group (SSG) is a premier Saudi holding company and a multidisciplinary powerhouse dedicated to bridging the gap between ambitious architectural concepts and sustainable reality. For over two decades, we have evolved from a single entity into a comprehensive ecosystem of seven specialized subsidiaries.

By integrating design, environmental intelligence, construction, and industrial manufacturing, SSG provides a single point of accountability for the Kingdom's most complex Giga-projects.

We don't just consult; we execute the future

EXECUTIVE VISION

Beyond Consulting: We Deliver the Vision.

The transition from Vision 2030 to tangible reality requires more than fragmented contracting; it requires a singular, high-performance partner.

Smart Solution Group (SSG) was built to close the gap between ambition and execution. We provide the infrastructure, the environmental intelligence, and the architectural mastery needed to build a sustainable Kingdom.

The One Partner Promise

“ We provide a single point of accountability, eliminating the friction of fragmented development.

Khalid AlYami
CEO, SSG

”

BUILDING THE SAUDI LEGACY

At SSG, we don't just consult; we execute. For over two decades, we have evolved into a multi-disciplinary powerhouse designed to bridge the gap between ambitious architectural concepts and sustainable reality.

VISION 2030 ALIGNMENT:

Directly supporting the Quality of Life and Saudi Green Initiatives through localized expertise and global standards.

MOSTADAM

The Framework for Environmental Health

The Environmental Engine Of SSG.

As a Class-A environmental consultancy, we specialize in bridging the gap between Giga-scale development and ecological integrity. We transform regulatory complexity into a strategic advantage, ensuring every project is compliant, sustainable, and future-ready.

Core Specialized Services:

- Environmental Monitoring and Studies (Air, Water, Soil, Marine)
- Bioremediation (Degrade, or Detoxify Contaminant Environment)
- Waste Management (Collect, Disposal, Recycle, Transport)
- Sustainability Certifications & Advisory (LEED, MOSTADAM)
- Strategic Permitting (EIA, Auditing, and Compliance)
- Sustainability and Environmental Reporting (ESG)

We Are The Trusted Partner For Transforming Environmental Data Into A Certified, Compliant Path To Execution.

MOSTADAM ALKHALEEJ

The Science for a Sustainable Path

The Scientific Heartbeat Of SSG

We provides the high-precision analytical backbone—utilizing the latest global technologies to deliver certified testing for water, soil, and air quality. We empower government and industrial leaders to make evidence-based decisions that ensure total environmental compliance.

Core Specialized Services:

- Water Quality Analysis (Drinking Water, Wastewater, Groundwater)
- Soil Testing (Contaminant Screening, Geotechnical Properties)
- Air Quality Monitoring (Emission Testing, Indoor Air Quality)
- Waste Water Plant Design and Construction
- Environmental Remediation Testing
- Chemical Sanitation Services

We Are The Trusted Partner For Scientific Certainty And Certified Data For A Risk-free Path To Execution.

MARASEEM

The Gateway To Saudi Property Landscape

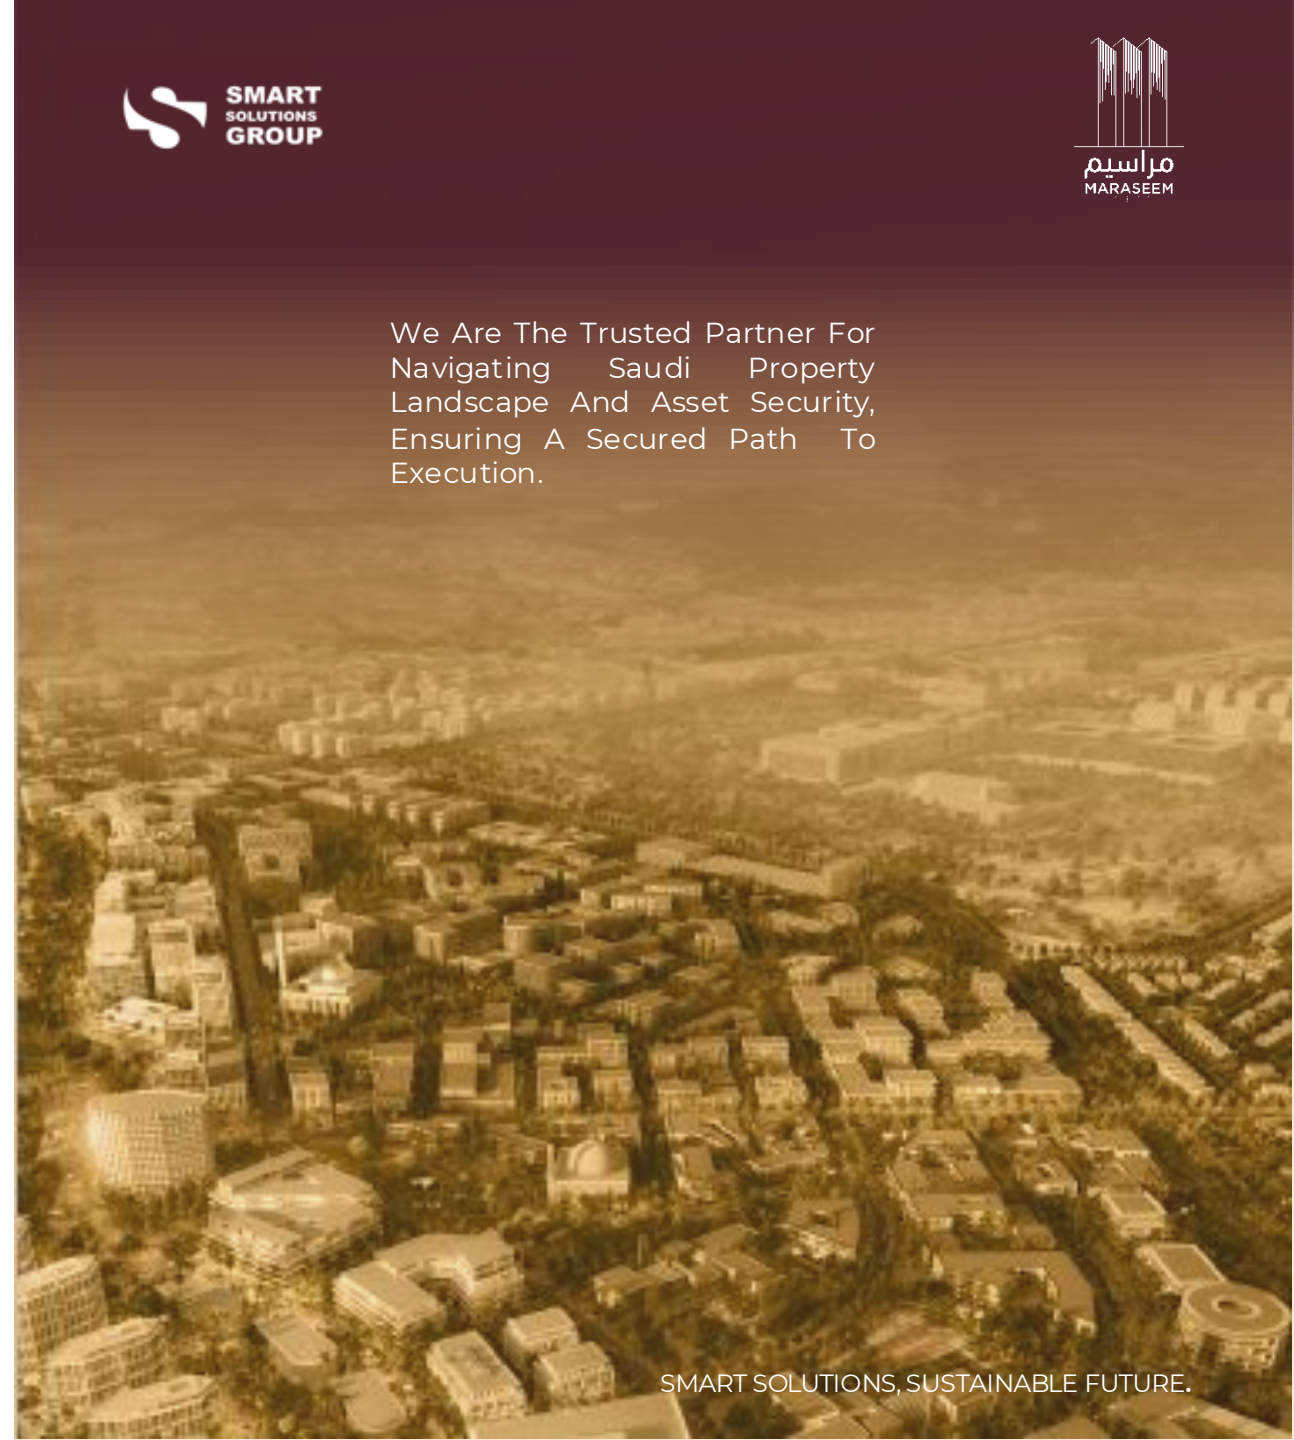

The Living Pules Of SSG

We bridge the gap between investment potential and physical reality by securing prime land and property assets that align with the Kingdom's rapid growth trajectory. By integrating market intelligence with the SSG technical ecosystem, we transform physical space into enduring strategic wealth.

Core Specialized Services:

- Asset Allocation: Identifying and securing land and properties for commercial, residential, and industrial use.
- Full-Cycle Development: Managing the transition from raw site acquisition to high-yield, fully realized built environments.
- Market Intelligence: Evaluating properties value and development feasibility in Saudi markets.

We Are The Trusted Partner For Navigating Saudi Property Landscape And Asset Security, Ensuring A Secured Path To Execution.

DESIGN SOLUTION

The Future of Innovative Architecture

The Creative Engine of SSG

We provide full-cycle architectural services for residential, commercial, and large-scale urban projects. Our approach merges 30 years of Saudi technical mastery with a world-class aesthetic, ensuring every project is culturally resonant, globally competitive, and engineered to endure.

Core Specialized Services:

- Pre-Design and Feasibility
- Schematic Design
- Design Development
- BIM & 3D Visualization
- Construction Documents
- Construction and Contract Administration

Hofman
Dujardin

We Are The Trusted Partner For
Merging Technical Mastery With
World-class Design Philosophy
To Deliver A Path To Execution.

GLOBAL-LOCAL SYNERGY

Powered by a strategic international partnership with Hofman Dujardin (Amsterdam), bringing world-class Dutch design philosophy to the heart of the Saudi landscape.

Merging international aesthetic standards with deep-rooted local regulatory mastery to ensure seamless site execution.

Our approach merges 30 years of Saudi technical mastery with a world-class aesthetic, ensuring every project is both culturally resonant and globally competitive.

SMART LIGHTING FACTORY

The Path of a Brighter Environment

The Engineering Hub of SSG

We redefine industrial illumination through integrated manufacturing. From custom-engineered fixtures to large-scale urban deployments, we provide the localized production power necessary to meet the ambitious timelines of the Kingdom's growth.

Core Specialized Services:

- A seamless "Design-to-Install" workflow
- Custom-engineered lighting fixtures
- Comprehensive Lux Studies
- Supervision and aftersales services

We Are The Trusted Partner For
Localized Manufacturing And
Technical Precision, Delivering A
Luminance Path To Execution.

SMART HOMES

The Intelligence of an Automated Home

The Digital Nervous System of SSG.

We redefine the modern living experience through intelligent, high-performance automation. By integrating disparate building systems into a unified digital ecosystem, we create responsive environments that prioritize security, efficiency, and sophisticated control.

Core Specialized Services:

- Centralized management Ecosystem integration
- Energy monitoring and automated scheduling
- Multi-Platform Command (mobile applications, wall panels, voice-activation technology)

SMART FURNITURE

The Harmony of Functional Environments

The Wellness DNA of SSG

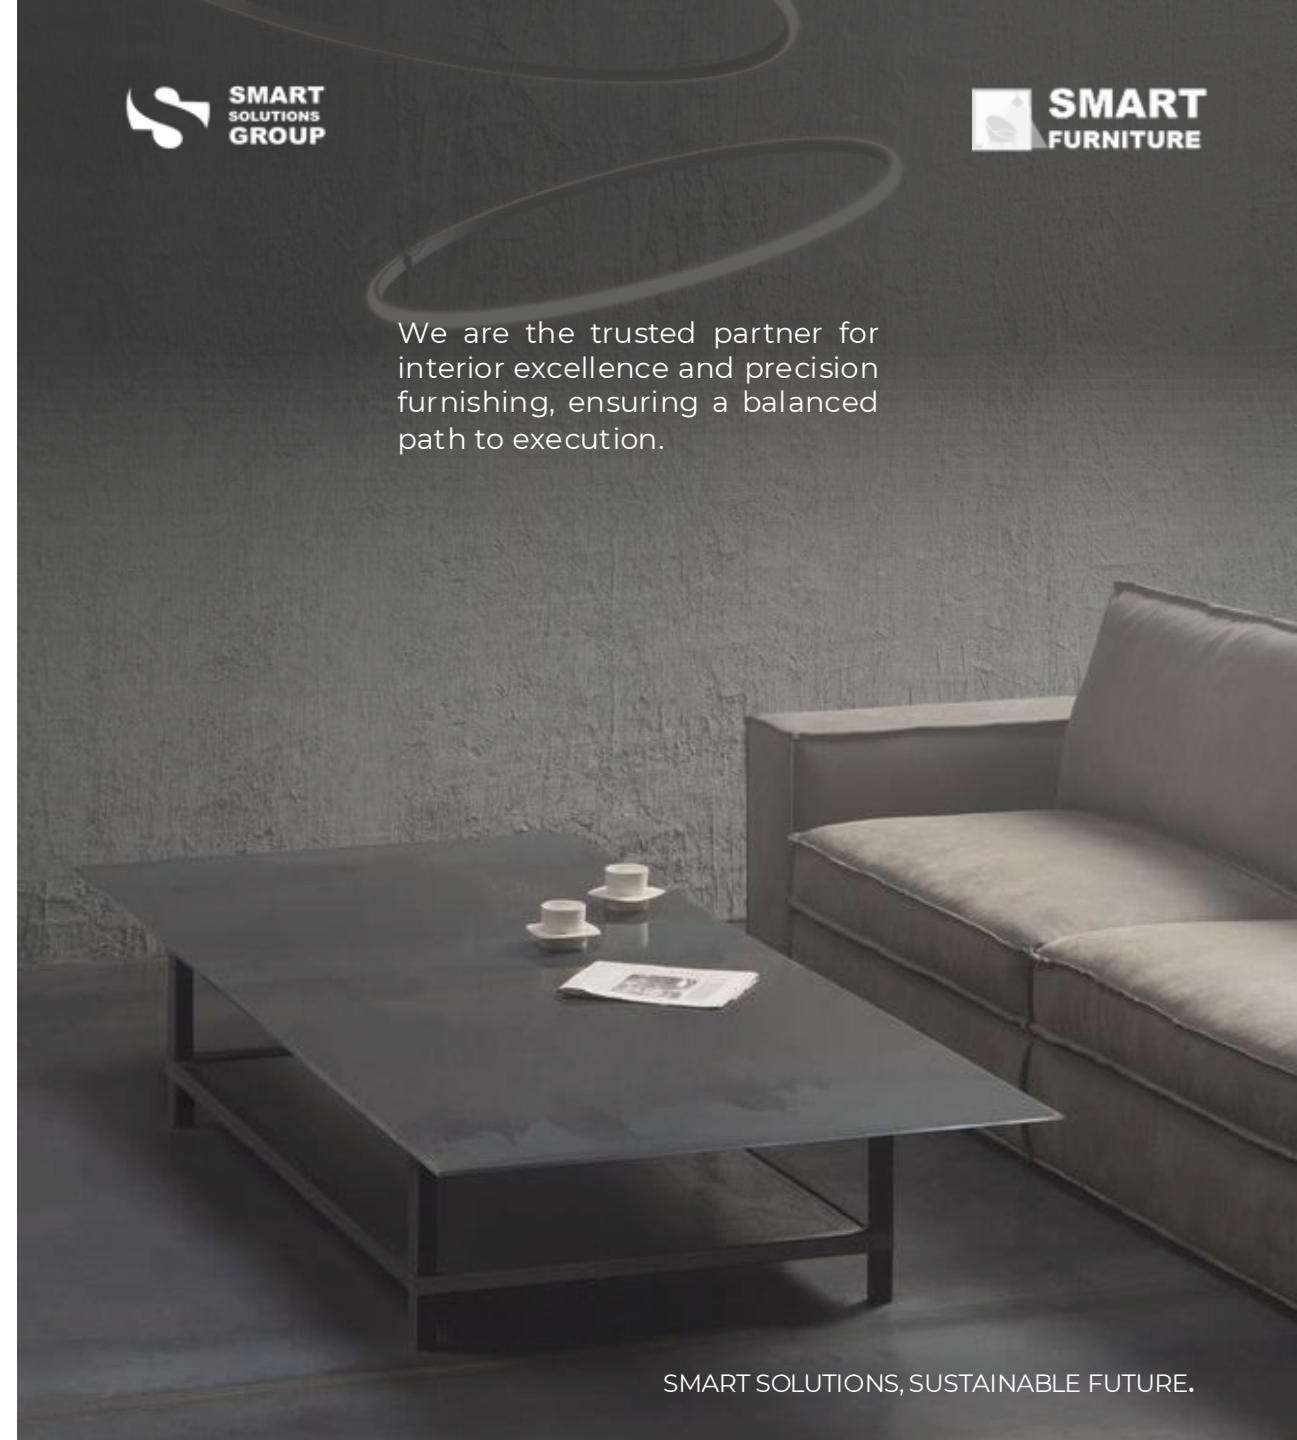

We provide the essential layer of spatial integration for residential and commercial environments. By merging interior architecture with expert procurement, we deliver high-performance furnishing solutions engineered to enhance quality of life and operational efficiency.

Core Specialized Services:

- Commercial Strategy & Furnishing Solutions
- Residential Design & Curation
- Integrated FF&E Management
- Full-Cycle Spatial Fit-Out

We are the trusted partner for interior excellence and precision furnishing, ensuring a balanced path to execution.

KHALEEJ NURSERIES

The Blueprint of a Green Kingdom

The Living Soul of SSG

We bridge the gap between built environments and the living landscape. By engineering large-scale greenery solutions optimized for the Saudi Arabian climate, we transform arid spaces into high-performance ecosystems that define the character and sustainability of the Kingdom's urban growth

Core Specialized Services:

- Precision Exterior Engineering (softscape and hardscape)
- Specialized Species Cultivation thrives in local soil conditions
- Strategic planning for ecological recovery and urban greening
- Landscape construction and tree translocation
- Biodiversity and Restoration
- Ecology & Environmental Management
- Integrated Irrigation System

We are the trusted partner for ecological vitality and resilient greening, ensuring a definitive path to execution.

THE SYNERGY ADVANTAGE

In a market defined by complexity, fragmentation is a risk. SSG eliminates this risk by operating as a unified ecosystem. By housing the entire project lifecycle—from environmental permitting to final interior fit-out—within one group, we ensure:

7 SUBSIDIARIES
1 POINT OF
ACCOUNTABILITY

The Power OF One Partner

- **Zero-Friction Handovers:**
 - No delays between design, engineering, and site delivery.
- **Unified Quality Standards:**
 - One benchmark for excellence across every vertical.
- **Cost Optimization:**
 - Integrated supply chains that protect your ROI.
